

Facial massage

Care begins with a gentle make-up removal. Warm washcloths wrap the face and give a sense of extraordinary pleasure. The massage is an original combination of full, deep movements of the masseur's hands, point pressures and deeply relaxing neck stretches. To appreciate this path to relaxation, you should go it at least once...

The massage is also recommended for pregnant women (after 12 weeks).

Price: 130 PLN/ 30 min.
